Kids' Sermon Notes are available to for children in Year 1 + (although younger children may want to engage with the material too and will manage it). In the notes there is a space to write or draw as well as some other activities including a colouring in sheet or two.

For younger children during the live stream either set them up with the colouring page or we suggest you set up an activity they are familiar with and you know they will enjoy doing for a while.

A series of questions based on the reading and video. There are two main type of questions.

- 1. Look for it (comprehension questions) younger kids can use their memories; older kids get them to actually find the answer in the text.
- 2. Think about it (What do these verses mean? What can we learn from the Bible story?) and how we can together remind one another of those things.

A prayer to pray in response to the discussion you've had. One person could lead this or you could pray it together.

A quided prayer model to prompt all family members to pray together.
